Peter comes in today In f/u o his recent ED visit at the MGH. I told him that he had almost been committed for psychiatric care. I told him my concern was that if her did not take his medications, He would have additonal similar misadventures and would end up as an in-pt.

He told me he has seen David Treadway twice. He was not aware that Dr. Treadway is a PhD psychologist and can not prescribe rx. He asked me not to contact Dr. Treadway , a decision we will discuss when he calls me next week.

He did tell me that Paul Roberts, his attorney, wished to speak with me and gave me permission to speak with Mr. Roberts.

He is taking seroquel 50 bid and promises to do so faithfully until next we speak.
